The Bagpipe band from Scotland

The very first tournament opened with the splendid sound of bagpipes, and Scottish bagpipe bands have been gracing the event ever since. They now play an essential part in the tournament.

2000・2002 The Vale of Atholl

The 2000 tournament

The 2002 tournament

2001 Dollar Academy

2003 ~ 2019 George Watson's College

The 2003 tournament

George Watson's College Bagpipe Band has been visiting the tournament every year since 2003. The school is located in the Scottish capital of Edinburgh, to the south of city center. It is a fully integrated school with students ranging from Nursery through to Senior 6, accommodated on a single campus. The school's pipe band has been the winner of the Scottish Schools Pipe Band Championships, from 2015 to 2018.

Welcome party at the 2019 tournament

- 2011 & 2012 Won five major competitions, including the World Championships.
- 2012 Awarded "Pipe Band of the Year" at the Scottish Traditional Music Awards.
- 2013 Won three major competitions.
- 2014 Won the British Pipe Band Championships and the World Championships.
- 2015 ~ 2018 Pipe band won the World Championships, and the drum corps won three major competitions.

As one tournament becomes history, it leads the way to the next generation.

Special video to mark the 20th anniversary of the tournament

Enjoy a two and a half minute video where you'll find highlights of the tournament, from past to present, with comments from players and coaches, including that renowned manager.

https://youtu.be/W7z_CXn_qlsk

<Remarks from the video>

- This tournament is acknowledged as a world-class event for high school rugby players. Now that it has become so huge, I can't help but reminisce the past. It's a great experience for all the teams. The domestic players are becoming more and more stronger, strong enough to compete against their overseas counterparts, who are larger in size. (Mr. Ryoji Yamaguchi – Former Head Coach of Fushimi Technical High School)
- This tournament is one of the most important events in our team's calendar. Perhaps the most important. It's difficult to win here, even more so than at Hanazono, at Japan National High School Championship. (Mr. Hideyuki Fujiwara – Head Coach of Toin Gakuen High School)
- We want to win this tournament. As a team from Fukuoka, we feel so honored to have taken part in this international competition for the past 20 years; an outstanding annual event held in Munakata city, Fukuoka. It is our continuing goal to be the champion of this tournament, and we are so grateful for the exceptional experience offered here. I really hope a team from Fukuoka will someday take the trophy. (Mr. Yuichiro Fujita – Head Coach of Higashi Fukuoka High School)

| Name | Year | Team Name |

No referees were invited to the 2000 (1st) and the 2007 (8th) tournaments.

Afterword

~ Global Arena: Promoting International Understanding ~

Shinichi Munemasa (1949-2017) was a true rugby lover.

In 2000, Global Arena was established to realize the strong vision put forth by the founder of SANIX, Shinichi Munemasa, to “create a gathering place for children across the globe, where they can interact through sports and culture”. From here, the history of the tournament began. Munemasa’s legacy lives on as many interactions between peoples are continuing to take place at the very site.

It would be our utmost pleasure if children from all over the world nurture dreams, hopes and friendship through our tournament, and that this wonderful community of global understanding would spread throughout the planet.

Shinichi Munemasa received the Distinguished Service Award from JRFU, honoring his effort in promoting rugby and contributing to its development (2013).

Shinichi Munemasa with the current President of JRFU, Mr. Shigetaka Mori and Director of JRFU, Mr. Yuichiro Fujii, at a certain New Year’s Party (2016)

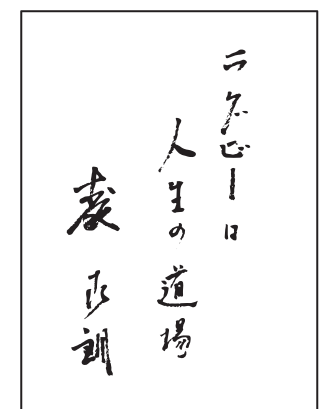

Munemasa played as a member of the Australian team at the SANIX World Rugby Classic Fukuoka 2000 (2000).

“Monument to Friendship”

Erected at Global Arena in April 2018, this monument symbolizes the thoughts and accomplishments of the late Shinichi Munemasa. Please visit the place to sense his passion for the venue.

A stele with the words of the former Japanese Prime Minister Yoshiro Mori, whom Munemasa became acquainted with through the sport of rugby.

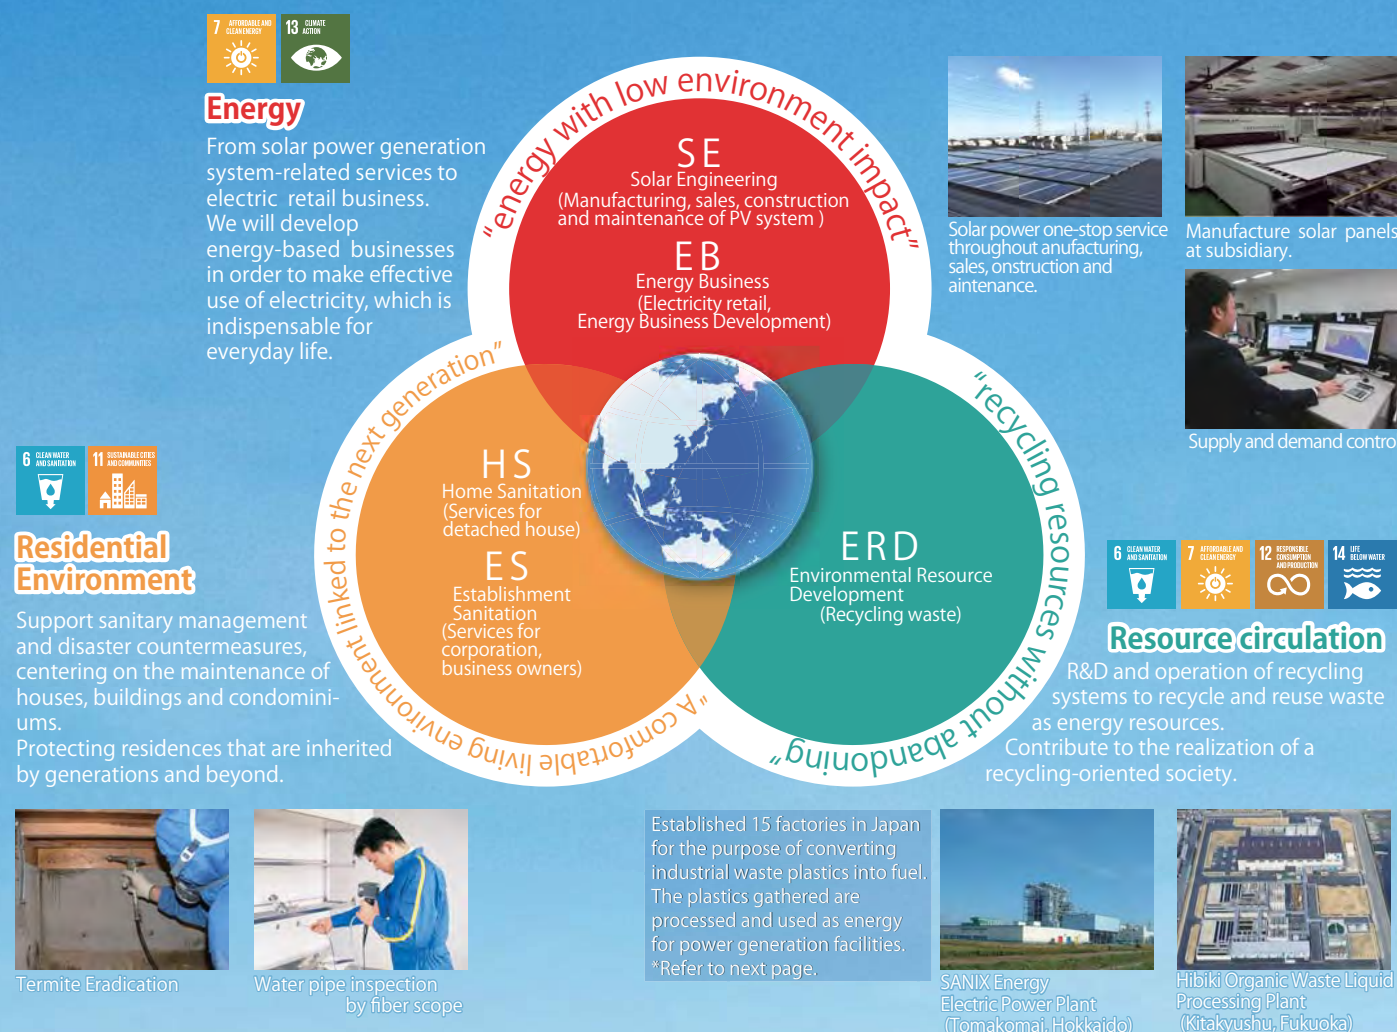

“Rugby teaches you everything about life”

For a comfortable environment, for the next generation.SANIX continues to take on the challenge.

In the modern era, where measures against global warming and environmental destruction are urgently needed, the creation of a sustainable society is a common awareness of the world.

Under the company philosophy of "a comfortable environment for the next generation," we develop our business in three areas: residential environment, energy, and resource recycling. Our goal is to create a society in which "a comfortable living environment is linked to the next generation," "energy with low environmental impact," and "recycling resources without abandoning them," all of which are established as obvious values.

Recycling Energy from Waste Plastics (Resource Recycling-Oriented Power Generation Systems)

Industrial Waste Increasing in Accordance with Economic Development....

The disposal of these materials is an important social issue.

SANIX entered the industrial waste treatment business in 1994 to meet the needs of the times.

In the course of its operation, we focused on the high calories burned by plastics, and developed a resource-recycling power generation system that recycles plastics that had been simply burned and disposed of at landfills as energy. Waste plastics discharged from manufacturing plants and other plants are processed into fuel at 15 plants nationwide and used as fuel for power generation at SANIX Energy Tomakomai Power Station (subsidiary of SANIX, Hokkaido). Recycled as energy.

Zero-Waste Sustainable Power Generation System

Contributing to build
the resource recycling society

Enhancing utilization of waste plastic

Fossil fuel use reduction

15-20% less CO₂ emission at incineration than coal

90% reduction of volume and lengthening landfill lifespan

Contribution to Sustainable Development Goals.

Introducing SANIX's Corporate Social Responsibility Activities

International Mutual Sports and Cultural Programs.

SANIX has been supporting international sports tournaments, activities and cultural events, by providing chances for developing global communication and sports skills of younger generations at Global Arena*

*Our founder, Shinichi Munemasa, constructed a comprehensive sports cultural facility (Munakata-shi, Fukuoka Prefecture) based on the funder's profits at the time of the initial public offering of stocks. Lodging facilities and restaurants are also available for sports competitions, school training, and corporate training as well as for citizens' recreation.

SANIX World Rugby Youth Tournament

Takes place annually at the end of April to early May, since 2000
Host: Japan Rugby Football Union, SANIX Sports Foundation, Global Arena

■ Participant nations and regions

Host: SANIX Sports Foundation, Global Arena

From the Kazanlak, a place famous for rose festival, traditional folk dance ensemble attends a festival, also visits each place in Fukuoka. This Festival aims to introduce a Bulgarian culture and promote cultural exchange between Bulgaria and Japan.

Participation in Education

Sports instruction by the rugby club (Munakata Sanix Blues)

SANIX has a rugby section, the Munakata Sanix Blues (founded in 1994).

Since 2002, the Rugby section, together with the SANIX Sports Foundation (funded as a foundation in 1997) has been teaching Tag Rugby in physical education classes at elementary schools in Munakata City, Fukuoka Prefecture (15 schools, 1,014 people, and 121 hours in FY2018).

In addition we also provide rugby classrooms for children at kindergartens and nursery schools in the city (10 schools and 340 people in FY2018), and guidance for those who wish to visit or uses Global Arena for lodging training.

Career development division's Outreach Lecture

We have long established a training center to focus on employee education, and have been researching and refurbishing our own employee education programs. In particular, "courtesy, greetings, manners, and communication" are given on-site to junior high schools, high schools, community colleges, fire departments and other organizations in recognition and appreciation of social values in local communities and educational institutions.
